

**If we were
your school
photographer**

you would enjoy...

style

● Our philosophy, for over 20 years, has been to create images with style. **There's nothing "Cookie Cutter" about our portraits.** Using multiple photographers, various poses, and interesting composition, our carefully trained staff is given the freedom to deliver a truly "individual" portrait to each child.

No matter what you choose, outdoor or indoor, proof or pre-pay, fall or spring: our style will always apply.

kindness

- From our photographers to our Customer Care Lifeguards, your school community will always be treated with kindness. **Every child will enjoy a warm, patient smile** from our photography staff, and if your families contact us they will be treated to professionals who are prepared to help.

And, parents can rest assured, that in case of emergency, a child's image can be made available quickly and securely.

fairness

- Don't you hate finding out that someone else got a better deal? We do, so our commission program is in writing and never negotiated. Our **easy-to-use order forms** are unique to each of our programs, and our **100% money back guarantee** ensures your satisfaction.

We provide scholarship packages, **free class pictures**, free faculty packages, funding of cultural arts programming, and free copies of the children's images in a variety of formats for your school.

To top it off, working with us is simple.

happiness

- Happiness is knowing no one will work harder to ensure your community's satisfaction.

We want to work with you and are confident that once you meet with us and talk to our clients, you too will want to become a part of our innovative approach.

We focus on *you!*
